Rules of the LiveDune Affiliate Program

1. LiveDune Affiliate Program
This program creates a pathway to your stable main or additional income. You attract new users and get our reward.

2. How do you attract new clients?
Each participant in the Affiliate Program gets a unique affiliate (referral) code. You will get a reward for the services provided to users who signed up for LiveDune through your referral link. You can share the link with your referral code in any way: on forums, websites, or by creating contextual or banner advertising.

3. How much will I earn?
You will receive **30%** from the services provided to each new client during the first half-year of signing up and **15%** during the second half-year. For the next two years, you will earn **7.5%** of the payments made by your leads.
The maximum reward for one transaction is RUB 5,000.

4. How do I make a referral link?
To create a referral link out of any LiveDune website page, you should add
"?from=your_affiliate_code" at the end. For example, if your affiliate code is **"livedune"**, then any LiveDune link that ends with "?from=livedune" will be a referral one.
You can change your referral link.

5. Referral link examples:
5.1. Main LiveDune page — https://livedune.com?from=livedune
5.2. Signup page — https://pro.livedune.com?from=livedune

6. Active accounts
These are the clients you have attracted who have at least once paid for our services.

7. The following is forbidden
Branded searches using "livedune" or similar words are forbidden. Violations will lead to the deactivation of the referral program.

8. Promo code
If you attract over 50 active users, you can get a personal promo code that will automatically connect a user to your referral program.
